1. Identification

Product identifier
VITAPM Investment

Further trade names
Einbettmasse für Presskeramik, Investment for pressable ceramics, Revetement pour céramique pressable, Revestimiento para cerámica inyectada, Rivestimento per ceramica a pressione

Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/mixture
Auxiliary for manufacture of dental products Use as laboratory reagent

Details of the supplier of the safety data sheet

| Company name: | VITA Zahnfabrik H.Rauter GmbH & Co.KG |
| Post-office box: | 1338 |
| | 79704 Bad Säckingen |
| Telephone: | +49(0)7761-562-0 |
| e-mail: | info@vita-zahnfabrik.com |
| Internet: | www.vita-zahnfabrik.com |
| Emergency telephone number: | +49-(0)761-19240 |

2. Hazard identification

Classification of the substance or mixture

WHMIS 2015
Specific target organ toxicity - single exposure: STOT SE 2
Specific target organ toxicity - repeated exposure: STOT RE 1

Label elements

WHMIS 2015
Signal word: Danger

Pictograms:

Hazard statements
May cause damage to organs.
Causes damage to organs through prolonged or repeated exposure.

Precautionary statements
Do not breathe dust/fume/gas/mist/vapours/spray.
Do not eat, drink or smoke when using this product.

Other hazards
No information available.

3. Composition/information on ingredients

Mixtures

Hazardous components

<table>

</table>

(*) The actual concentration is withheld as a trade secret.
4. First-aid measures

Description of first aid measures

General information
First aider: Pay attention to self-protection! Remove affected person from the danger area and lay down.

After inhalation
Provide fresh air.

After contact with skin
Wash with plenty of water. Immediately remove any contaminated clothing, shoes or stockings.

After contact with eyes
Rinse immediately carefully and thoroughly with eye-bath or water.

After ingestion
No information available.

Most important symptoms and effects, whether acute or delayed
No information available.

Indication of immediate medical attention and special treatment needed
Treat symptomatically.

5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media
Co-ordinate fire-fighting measures to the fire surroundings.

Specific hazards arising from the hazardous product
Non-flammable.

Special protective equipment and precautions for fire-fighters
In case of fire: Wear self-contained breathing apparatus.

Additional information
Suppress gases/vapours/mists with water spray jet. Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Provide adequate ventilation. Do not breathe gas/fumes/vapour/spray. Avoid contact with skin, eyes and clothes. Use personal protection equipment.

Environmental precautions
Do not allow to enter into surface water or drains.

Methods and material for containment and cleaning up
Absorb with liquid-binding material (e.g. sand, diatomaceous earth, acid- or universal binding agents). Treat the recovered material as prescribed in the section on waste disposal.

Reference to other sections
Safe handling: see section 7
Personal protection equipment: see section 8
Disposal: see section 13

7. Handling and storage

Precautions for safe handling
If handled uncovered, arrangements with local exhaust ventilation have to be used. Do not breathe
VITA Zahnfabrik H. Rauter GmbH & Co. KG

Safety Data Sheet

according to WHMIS

Revision date: 12.08.2019
Product code: 183

Page 3 of 6

Advice on protection against fire and explosion

No special fire protection measures are necessary.

Conditions for safe storage, including any incompatibilities

Requirements for storage rooms and vessels

Keep container tightly closed. Keep locked up. Store in a place accessible by authorized persons only. Provide adequate ventilation as well as local exhaust at critical locations.

Hints on joint storage

No special measures are necessary.

8. Exposure controls/Personal protection

Control parameters

Exposure controls

Appropriate engineering controls

If handled uncovered, arrangements with local exhaust ventilation have to be used. Do not breathe gas/fumes/vapour/spray.

Protective and hygiene measures

Remove contaminated, saturated clothing immediately. Draw up and observe skin protection programme. Wash hands and face before breaks and after work and take a shower if necessary. When using do not eat or drink.

Eye/face protection

Dust protection eye glasses

Hand protection

When handling with chemical substances, protective gloves must be worn with the CE-label including the four control digits. The quality of the protective gloves resistant to chemicals must be chosen as a function of the specific working place concentration and quantity of hazardous substances. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves. Recommended glove articles KCL Dermatril P NBR (Nitrile rubber)

Skin protection

Wear suitable protective clothing.

Respiratory protection

Avoid dust formation. In case of inadequate ventilation wear respiratory protection. FFP2/FFP3 If technical exhaust or ventilation measures are not possible or insufficient, respiratory protection must be worn.

10. Stability and reactivity

Reactivity
- No hazardous reaction when handled and stored according to provisions.

Chemical stability
- The product is stable under storage at normal ambient temperatures.

Possibility of hazardous reactions
- No known hazardous reactions.

Conditions to avoid
- none

Incompatible materials
- No information available.

Hazardous decomposition products
- No known hazardous decomposition products.

11. Toxicological information

Information on toxicological effects
- Acute toxicity
  - Based on available data, the classification criteria are not met.
- Irritation and corrosivity
  - Based on available data, the classification criteria are not met.
Sensitizing effects
Based on available data, the classification criteria are not met.

Carcinogenic/mutagenic/toxic effects for reproduction
Based on available data, the classification criteria are not met.

STOT-single exposure
May cause damage to organs. (Quarz alveolgängig)

STOT-repeated exposure
Causes damage to organs through prolonged or repeated exposure. (Quarz alveolgängig)

Aspiration hazard
Based on available data, the classification criteria are not met.

Additional information on tests
The mixture is classified as hazardous according to regulation (EC) No 1272/2008 [CLP].

12. Ecological information

Ecotoxicity
The product is not: Ecotoxic.

Persistence and degradability
The product has not been tested.

Bioaccumulative potential
The product has not been tested.

Mobility in soil
The product has not been tested.

Other adverse effects
No information available.

Further information
Avoid release to the environment.

13. Disposal considerations

Waste treatment methods

Disposal recommendations
Dispose of waste according to applicable legislation.

Contaminated packaging
Waste codes/waste designations according to EWC/AVV

14. Transport information

Marine transport (IMDG)

UN number: No dangerous good in sense of this transport regulation.

United Nations proper shipping name: No dangerous good in sense of this transport regulation.

Transport hazard class(es): No dangerous good in sense of this transport regulation.

Packing group: No dangerous good in sense of this transport regulation.

Air transport (ICAO-TI/IATA-DGR)

UN number: No dangerous good in sense of this transport regulation.

United Nations proper shipping name: No dangerous good in sense of this transport regulation.

Transport hazard class(es): No dangerous good in sense of this transport regulation.

Packing group: No dangerous good in sense of this transport regulation.
Environmental hazards

ENVIRONMENTALLY HAZARDOUS: no

15. Regulatory information

Canadian regulations

16. Other information

Abbreviations and acronyms

ADR: Accord européen sur le transport des marchandises dangereuses par Route
(European Agreement concerning the International Carriage of Dangerous Goods by Road)
IMDG: International Maritime Code for Dangerous Goods
IATA: International Air Transport Association
GHS: Globally Harmonized System of Classification and Labelling of Chemicals
EINECS: European Inventory of Existing Commercial Chemical Substances
ELINCS: European List of Notified Chemical Substances
CAS: Chemical Abstracts Service
LC50: Lethal concentration, 50%
LD50: Lethal dose, 50%

Further information

The information is based on the present level of our knowledge. It does not, however, give assurance of product properties and establishes no contract legal rights. The receiver of our product is singularly responsible for adhering to existing laws and regulations.

(The data for the hazardous ingredients were taken respectively from the last version of the sub-contractor's safety data sheet.)
