VITAPAN EXCELL: Tooth moulds with vitality and golden proportions
What?

• VITAPAN EXCELL is a new generation of MRP composite anterior tooth that boasts a brilliant play of shape, shade and light for natural-looking dentures.

What for?

• VITAPAN EXCELL is perfect for highly esthetic full, partial and implant-retained dentures.

With what?

• VITAPAN EXCELL Anterior and VITAPAN LINGOFORM Posterior are the matched, multifunctional combination for all common occlusal concepts.
lifelike three-dimensional moulds
brilliant play of shade and light
THE BENEFITS

**Naturally esthetic results**
- Simple fabrication of highly esthetic dentures due to lifelike tooth moulds with "golden" proportions

**Brilliant play of shade and light**
- Brilliant play of shade and light thanks to excellent light dynamics and harmonious shade progression

**Very good shade accuracy**
- Allows good shade reproduction with remaining natural dentition, due to excellent shade accuracy to the shade guide

**High durability**
- Excellent durability you can rely on, thanks to abrasion-resistant MRP composite material
Criteria for a new generation

An anterior tooth requires:
✓ “Golden” proportions in terms of length, width, etc.
✓ Perfectly aligned tooth axes
✓ Natural angle/curvature characteristics

An anterior tooth needs:
✓ Natural light transmission
✓ Vitality in light dynamics

An anterior tooth must have:
✓ Excellent shade accuracy in accordance with the VITA shade standard
✓ A harmonious shade transition

VITAPAN EXCELL: A new generation developed with a passion for detail
VITAPAN EXCELL allows for:

- **Easy replication of the natural symmetry**
  thanks to moulds with a well-balanced length/width ratio

- **Convenient reproduction of the tooth position**
  thanks to anterior teeth with "perfectly" aligned tooth axes
VITAPAN EXCELL: Developed according to universal principles for natural, esthetic results
VITAPAN EXCELL allows for:

- Top-class gingiva modeling for optimum red-white esthetic thanks to wide cervical dimensions
VITAPAN EXCELL allows for:

- Vitality in play of shape
  thanks to moulds with natural angle/curvature characteristics
FASCINATING PLAY OF SHADE AND LIGHT IN ALL FACETS

VITAPAN EXCELL shows:

- **Good light transmission**
  thanks to pronounced enamel area

- **Light dynamics with vitality**
  thanks to the integrated opal effect

- **Brilliant play of light**
  thanks to a multifaceted surface texture

Fascinating natural vitality effects are produced by light and reflection
Good light transmission
VITAPAN EXCELL shows a natural translucency in the incisal area for a natural play of light.

Integrated mamelon/opalescence
Thanks to the integrated opal effect, VITAPAN EXCELL shows a variety of natural shade facets.

Multifaceted surface texture
In order to ensure natural diffusion and reflection of light, VITAPAN EXCELL has a multifaceted surface texture.
VITAPAN EXCELL offers:

- Harmonic shade transmission from cervical area to incisal edge thanks to its unique 3D shade layering*

*) Systematic diagram of the VITAPAN EXCELL layer structure
**VITAPAN EXCELL offers:**

- Excellent shade accuracy in accordance with the VITA shade standard thanks to matching lightness, chroma and hue values

Excellent shade accuracy is very important in a denture tooth, especially when the other teeth are natural.
CONCEPTS AND INDICATIONS

**Anterior/Posterior combination**
A perfect combination: VITAPAN EXCELL and VITAPAN LINGOFORM
- For the best prosthetics in shape, shade and function
- Universal use in all prosthetic concepts, thanks to multifunctional design

**Occlusion concepts**
- For lingual/balanced occlusion concepts:
  e.g. according to Gysi, Prof. A. Gerber, APF/TiF, ABC

**Indications**
- Recommended for full and partial dentures
- Recommended for implant-supported dentures
FACTS AND FEATURES

VITAPAN EXCELL® is a lab-tested denture tooth designed by technicians, for technicians. Now you can find out more about its materials, manufacturing process and lab users.
With VITA denture teeth, you can rely on the highest production standards and fully tested quality.
VITAPAN EXCELL® – 100 % GERMAN DENTAL ENGINEERING BY VITA

Development, design and mould construction
Optimized for practical use

VITAPAN EXCELL was designed and constructed based on natural teeth. VITA’s developers and engineers received input and ideas for the product from experienced dental technicians all around the world.

MRP composite material
For high durability

The VITAPAN EXCELL denture tooth is made of MRP (Micro-filler-Reinforced Polymer matrix) composite material and has a highly cross-linked polymer matrix with homogeneously distributed, polymerized silicon dioxide filler particles.
Modern manufacturing process
For top quality

VITAPAN EXCELL is manufactured at the VITA Zahnfabrik headquarters in south Germany according to the strictest production and quality standards – to ensure that the prosthetics offer lasting reliability.

Lab testing
For reliable use

Prior to its launch, VITAPAN EXCELL was tested in a number of labs around the world in order to ensure the quality and reliability of the denture tooth.
LAB-TESTED: 96% SATISFACTION WITH VITAPAN EXCELL®

Expert opinions on the esthetic appearance of VITAPAN EXCELL®

“The shape and surface texture are beautiful, everything looks very natural!”
Urban Christen, DD, denturist, Hunzenschwil, Switzerland

“VITAPAN EXCELL shows no breaks in shade in the vestibular area – just a beautiful, flowing transition!”
Andreas Buchheimer, DT, Schopfheim, Germany

“The texture, the shade transition, the dentin-incisal ratio ... it all gives the tooth a great vitality!”
Daniel Sperlich, MDT, Freiburg, Germany

“VITAPAN EXCELL is something completely new ... it exceeded my expectations!”
Tim Friedland, DT, Osnabrück, Germany
“What really makes VITAPAN EXCELL interesting is its shape, shade and texture!”

Gudrun Hecker, DT, Aschau am Inn, Germany

Results according to beta testing by dental technicians*

• **96% satisfaction with esthetic appearance**
  96% of the technicians included in the survey rated the esthetic appearance of VITAPAN EXCELL as “good” or “very good”

• **Shape, shade and texture rated especially high**
  The technicians in the survey were particularly impressed with the shape, shade and surface texture of VITAPAN EXCELL

*Source: Survey as part of VITAPAN EXCELL testing in selected dental labs (N=25), Study and report: 4eins41 Corporate Management and Market Research, 10/2016 ([1], see back of brochure)
Now let's take a closer look at the variety of shades and shapes, recommended combinations and available system components.
For generations, dental technicians and VITA have been united by a passion for prosthetic solutions.
SHADES AND MOULDS

**VITAPAN EXCELL® Anterior**

- Available shades:
  - 11 x VITA SYSTEM 3D-MASTER® shades
    - 0M3, 1M1, 1M2, 2L1.5, 2M1, 2M2, 2R1.5, 3L2.5, 3M2, 3R2.5, 4M2
  - 15 x VITA classical A1–D4° shades
    - A1 – D4 (without B1)

**VITAPAN® LINGOFORM Posterior**

- Available shades:
  - 27 x VITA SYSTEM 3D-MASTER® shades
    - 0M3, 1M1 – 5M3
  - 15 x VITA classical A1–D4° shades
    - A1–D4 (without B1)

VITAVM CC
Masking/Fixation
**Perfect Solutions for Fabrication**

- **Moulding/model fabrication**
  - For situational/functional molding, use appropriate impression trays (e.g. from VITA) and impression materials.

- **Shade determination**
  - For the shade determination of the remaining dentition, use VITA Easyshade V or a VITA shade guide.

- **Model analysis/mould selection**
  - Use the VITA mould chart after the model analysis of the tooth(s) to select the appropriate VITA denture teeth.

- **Wax setup**
  - Use appropriate wax and processing tools for the wax setup and chewing simulation.

- **Bonding**
  - For a secure bond of VITA denture teeth to the base materials, use the adhesive agent VITACOLL.

- **Base fabrication**
  - Use the cold/hot polymerisate recommended by VITA for the fabrication of the base, e.g. using an injection or pressure-packing technique.

- **Finishing**
  - For the fabrication, use suitable polishing instruments and, for individualization, the veneering composite VITA VM LC.

*) Visual or technical shade determination only takes place if there is any remaining natural dentition.
VITA PROSTHETIC SOLUTIONS –
For the best dental prosthetics: natural, reliable, rich in variation.

Efficient CAD/CAM dentures for greater productivity.

Best variety of shade and moulds for all cases.

Solid, standard dentures with excellent cost efficiency.

Vivid play of shape and shade for natural results.

Manufacturing high-end dentures
VITA PREMIUM PROSTHETIC offers you high-value MRP-composite teeth with naturally vivid play of shape and shade for the best, highly esthetic full, partial and implant-retained dentures.
