

**Residual risks of ceramic CAD/CAM materials (such as VITABLOCS)**

*Possible complications and residual risks of ceramic CAD/CAM materials in general, and not specific to VITA materials, are:*

- Peeling or loosening of the restoration, resulting in possible choking
- Plaque deposits
- Post-operative hypersensitivity
- Irritation of the mucosa
- Caries in marginal gaps
- Intolerance and/or potential allergic reaction
- Breakage

*These risks must be communicated to the patient by trained personnel (e.g., dental professionals).*
