Fine-structure ceramic for individualizing VITA SUPRINITY PC

VITA VM 11 is a low-fusing, fine-structure feldspar ceramic that has been specially developed for individualizing restorations made of zirconia-reinforced lithium silicate glass ceramic.*

The perfectly matched CTE values of substructure and veneering materials help minimize stress to ensure superior bonding and veneering reliability that is free of warping.

Product benefits

Fig. 2

Highly esthetic restorations:
The high translucency and warm shades of VITA VM 11, in combination with the opalescent effect of VITA SUPRINITY PC, create highly esthetic restorations with a vivid play of colors.

Reliable bonding:
Stress-free and reliable bonding is ensured through a perfect match of both CTE ranges.

Fig. 3

Good grinding and polishing properties:
Thanks to the proven fine structure of VITA VM 11, its smooth and densely sealed surface can be easily and quickly polished.

Simple processing:
Excellent stability, minimal shrinkage and high edge stability are distinctive features of VITA VM 11. Thanks to the very good surface wettability of the new glass ceramic VITA SUPRINITY PC, multiple layering without liner firing or washbake is possible.

Fig. 4

Convincing firing stability:
The impressive firing properties of VITA VM 11 result in very high dimensional stability, even after several firings.

Figures 2 - 4 were provided with the kind support of Mrs. Heike Assmann (MDT).

* can also be used for CELTRA® Duo and CELTRA® CAD FC.
  CELTRA is a registered trademark of DeguDent GmbH.

Assortments
VITA**VM**®**11** DENTINE KIT 3D-MASTER, BV11DK

Quantity	Contents	Material
6	12 g	TRANSPA DENTINE 0M1, 1M1, 1M2, 2M2, 3M2, 4M2
2	12 g	ENAMEL ENL, END
1	50 ml	LOW FUSING MODELLING LIQUID
		Instructions for use
