► **Note: The VITA VIONIC VIGO prefabricated tooth is a specially developed product with a design perfected for digital production processes. The teeth are shortened in the cervical area and the contact surfaces to the denture base are preconditioned for bonding. As a result, the ready-to-use teeth that can be directly taken from the packaging and bonded into the cavities of the digitally fabricated denture base.**

F: Remarque : la dent préfabriquée VITA VIONIC VIGO est un produit qui a été spécialement conçu pour les processus de production numérique. Les dents sont raccourcies au niveau cervical et les surfaces de contact avec la base prothétique sont préconditionnées pour le collage. Les dents prêtes à l'emploi peuvent donc être collées directement depuis l'emballage dans les cavités de la base prothétique fabriquée numériquement.

ES: Nota: el diente VITA VIONIC VIGO preconfeccionado es un producto desarrollado especialmente para procesos de confección digitales. Los dientes están recortados por cervical y se han preconfeccionado las superficies de contacto para facilitar la adhesión a la base de la prótesis. De esta manera se pueden adherir los dientes listos para usar, directamente del embalaje, a las cavidades de la base de la prótesis confeccionada digitalmente.

I: Avvertenza: VITA VIONIC VIGO sono denti protesici sviluppati specialmente per il processo di produzione digitale. La zona cervicale è accorciata e le superfici di contatto con la base protesica preconfezionata per l'incollaggio. I denti pronti per l'uso possono essere prelevati direttamente dalla confezione e incollati nelle cavità della base protesica realizzata in modalità digitale.
